FOR FURTHER INFORMATION CONTACT: CFATS Program Manager, DHS/NPPD/IP/ISCD, CFATS@hq.dhs.gov.

SUPPLEMENTARY INFORMATION: Section 550 of the Homeland Security Appropriations Act of 2007, Pub.L. 109-295, provides DHS with the authority to regulate the security of high-risk chemical facilities. On April 9, 2007, the Department issued an Interim Final Rule (IFR), implementing this statutory mandate at 72 FR 17688. Section 550 of the Homeland Security Appropriations Act of 2007 requires a risk-based approach to security.

CFATS is the Department's regulations under Section 550 governing security at high-risk chemical facilities. *See* 6 CFR Part 27. CFATS represents a national-level

effort to minimize terrorism risk to such facilities. Its design and implementation balance maintaining economic vitality with security facilities and their surrounding communities. In collaboration with the private sector and other stakeholders, the Department designed the regulations to take advantage of protective measures already in place and to allow facilities to employ a wide range of tailored measures to satisfy the regulations' Risk-Based Performance Standards (RBPS). The instruments within this collection will be used to manage the CFATS program.

RESPONSE TO COMMENT SUBMITTED DURING 60-DAY COMMENT PERIOD:

The Department received a comment suggesting that in the 60-day notice, the Department incorrectly calculated the burden estimates associated with the instrument "Request for a Technical Correction." The commenter assumed that the number of responses per respondent for this instrument was one. In fact, the Department estimated in the current Information Collection, which expires on March 31, 2013, that each respondent will on average respond 1.5 times. This assumption was carried over into the burden estimates used by the Department in the 60-day notice but not made explicit. The total annual burden for this instrument is calculated as follows [0.25 hours x 185 respondents x 1.5 responses per respondent], which equals 69.37 hours. The Department did not revise the burden estimates for this instrument.

Therefore, for this instrument and the other instruments in this 30-day notice the Department will continue to rely on the analysis and resulting burden estimates in the 60-day notice.
